Subject - Long Range improvement ~~of~~ water supply in Mysore City

*****

Sir,

1) Adverting to G O No L 19012-21/C M 89-52-3 dated 3-2-1953 communicating sanction to the formation of a committee to meet and consider the various schemes relating to the above subject etc I write to state that the committee may have to meet about 4 to 5 times to discuss and to finalise the matter

2) In this connection it is proposed to arrange for light lunch (on an austerity scale) during the course of the meeting I therefore, request that sanction of Government may kindly be obtained and communicated for incurring a total expenditure of Rs 60/- for the entire sittings debiting the cost to "Office contingencies" of my office

3) A copy of the Government Order referred to in para 1 supra is also enclosed for reference

I request for an immediate action in the matter

4) The proposal is to incur an expenditure of Rs 60/- towards the supply of lunch is for orders

Yours faithfully

12) Issued in No PW 12548 dated 31 3 53 to CE
States that the proposal to incur an expenditure of Rs 60/- towards the supply of lunch to the members of the committee is not acceptable

Letter No CE 246 dated 4 4 1953 from the Chief Engineer

13) The Chief Engineer says that the committee constituted to consider the various Schemes relating to Mysore city had to sit continously for 5 to 6 hours to discuss various schemes on some occasions without taking lunch He therefore requests sanction again to incur an expenditure of Rs 60/- to provide lunch on an austerity Scale to the members

CE 28/4 Itr 29/4

14) The matter is again referred for reconsideration.

Because this expenditure

preceding lunch the members of the committee constituted to consider the various Schemes of proposed city water supply

Serial No

already discussed, it is perhaps for reconsideration of the orders in consultation with F/Dr

Secy PWD

15) The argument for reconsideration does not seem to be materially different from that advanced in other cases however the members, Committee (non official members) entitled to DA or sitting fees? If need any order be issued? I do not see why a Mysore city municipality in which hardly all their efforts are being made should not meet expenditure already incurred

A

16) Recently a general order has been issued from the Fin Branch classifying the several committees constituted by Govt into three different categories and fixing certain rates of TA and DA to those committees It is not known under what category the committee constituted to consider the various Schemes relating to Mysore city water supply will come A reference was received from the Chief Engineer requesting orders on the matter of giving TA and DA.

Proceedings of the Government of Mysore,

Read -

Government Order No L P W 1704-10/W S 12-46-3 dated 6-8-1947 according administrative sanction to a scheme for the long range improvement of water supply in Mysore City

---

ORDER NO L 19012-21/C M 89-52-3

Dated Bangalore 3-2-1953

The water supply system in Mysore City has not developed progressively in recent years commensurate with the growth of population forcing an intermittent supply of water in the city The Committee for Public Works and Transport under the auspices of the Mysore Economic Conference examined this problem at its meeting held on 14th June 1946 As an outcome of this a long range scheme estimated to cost Rs 53,00 000/- was sanctioned in the Government Order read above It was indicated in the said Government Order that Government would meet the entire cost provided the Municipal Council agreed to pay the cost of water charges with interest at 3% on the capital outlay The Municipal Council has so far not given its consent to this proposal

After the scheme of Rs 53 00,000/- was sanctioned, it has been noticed that other modified schemes have been considered As a measure of urgency an estimate for Rs 12 1 lakhs was prepared by the Executive Engineer, Water Supply Division, for improving distribution and sent by the Municipal Commissioner, Mysore City Subsequent to the sending of the proposals for taking up the scheme costing Rs 12 1 lakhs the Municipal Council constituted a committee in March 1951, to examine the existing difficulties forwater supply and to make concrete suggestions for increasing supply at the main water works and improving the distribution system also The Municipal Council accepted the recommendations of this Committee to lay 24' mains from Krishnarajasagara to Mysore City the cost of which is estimated at Rs 24 5 lakhs, apart from the previous estimate for Rs 12 1 lakhs for improving the distribution system The total cost of the scheme thus went up to Rs 36 6 lakhs as detailed

below -

(a)	Laying 24' mains already obtained including cost of pipes and installation of pumps of Krishnarajasagar	Rs 24 5 lakhs
(b)	Laying of trunk mains of 16' and 12 within the city	4 1 "
(c)	Replacement of sub-mains 3' 1½' etc	2.3 "
(d)	Installation of meters in respect of all connections	5 0 "
(e)	Establishment charges	0 5 "
	Total Rs	36 6 lakhs

The second scheme which was estimated to cost Rs 36 6 lakhs is expected to cost Rs 39 45 lakhs at the current market rates

Inorder to consider both the financial and technical aspects of the scheme proposed, a meeting was held on 15th January 1953 consisting of the Chief Engineer the President of the Mysore City Municipal Council and the Secretary to Government, Finance Department, the Municipal Commissioner, Mysore City Municipality and the Secretary to Government Local Self Government and Planning Departments, The meeting was presided over by the Minister for Public Health and Local Self Government

The subject was discussed in detail from the financial aspect and certain decision were arrived at As regards the technical aspects it was found that there were different estimates and divergent views In one of the estimates, it has been proposed to draw water directly from Krishnarajasagar and in another it has been proposed to enlarge the existing pump house at Belagola In view of the conflicting opinion on the merits of the various schemes, it was decided that it would be best to refer the matter to a committee

Government agree with the decision taken at the meeting held on 15th January 1953 and they are pleased to appoint a Committee consisting of the following persons -

1 The Chief Engineer of Mysore (Chairman)
2 The President, Mysore City Municipal Council
3 Sri M Narasimhaiya, retired Chief Engineer of Mysore
4 Sri C N Shama Rao, Retired Superintending Engineer
5 Sri N Krishna Iyengar, Retired -do-
6 Sri Palahalli Sitharamiah, M,L C Mysore
7 The Executive Engineer, Water Supply Division, Bangalor (Secretary)

The terms of reference to the Committee will be -

(a) to consider the various schemes that have been prepared for the improvement of water supply in Mysore City and to suggest the most convenient and economical estimate for the

the consideration of Government

(b) To suggest the phasing of the expenditure during the next few years

The Committee is requested to meet immediately and send a report within one month
